

A new era of sound has begun! The all-new JBL GRIP combines JBL Pro Sound with a unique design!

Meet the new JBL Grip: the ultra-portable Bluetooth speaker designed to grab and go – just grip & go! Small in size, big in sound, the Grip brings with it the legendary JBL Pro Sound, impressive ambient lighting, and absolute IP68 dust, water, and drop resistance. A compact speaker that goes everywhere with you.

Small in size. Big in volume. With 16W of power and smart AI Sound Boost, Grip delivers fuller bass and clearer sound without distortion. Want more? Pair two speakers for stereo sound or connect multiple speakers with Auracast™ for an experience that takes off. Wherever the road takes you, Grip follows. With the built-in hook and rope, you can easily hang it on your backpack, bike, or kayak. It's rugged & ready—ready to withstand anything.

Its upright design stands out, with the JBL logo positioned vertically for a bold look. And to match your mood, the ambient light on the back changes color and intensity through the JBL Portable app.

Up to 12 hours of battery life (and +2 with Playtime Boost) give you sound that lasts from morning to night, louder and clearer than ever.

"JBL has been a leader in the portable speaker category since 2012, when we introduced the JBL Flip. The all-new JBL Grip continues to evolve the category, proving that we are not standing still as we offer great sound at an affordable price. We are excited to add the Grip to our collection, proving once again that there is a JBL speaker for every moment, every mood, and every budget," said Carsten Olesen, President of Consumer Audio at HARMAN.

Key features

- Powerful JBL Pro Sound
- Light Show that adapts to your mood Auracast™ technology
- AI Sound Boost – Powerful sound without distortion
- 12+2 hours of battery life with Playtime Boost
- IP68 – water, dust, and drop resistant

Boombox 4: BOOM Louder, LAST longer!

JBL is once again amplifying sound with the new JBL Boombox 4. Designed to shake up spaces, set the tone for any gathering, and bring people together through powerful sound. It's not just a speaker—it's JBL in its most authentic form: bass you can feel in your feet, with the most advanced technology.

⚡ **More power – No distortion** The Boombox 4 features AI Sound Boost, the smart technology that allows drivers to perform louder and clearer at any volume. The result? The legendary JBL Pro Sound with crystal-clear highs, powerful lows, and energy that fills the room.

Stronger and lighter With even more portable power, the Boombox 4 is almost 1 kg lighter than its predecessor, for easy transport anywhere. And yet, it offers 50% more battery life. Less weight. More power.

✨ **See the bass** JBL logos light up in white or orange when you activate Bass Boost. Choose between Deep Bass or Punchy Bass mode and let the speaker do the rest.

Built for every adventure The new rugged design with reinforced base and IP68 water and dust protection makes it ready for the pool, park, beach – anywhere your crew hangs out. And with Auracast™, you can connect it directly to other compatible JBL speakers for an even more powerful experience.

"The market is moving towards portable speakers with more powerful bass – and JBL has mastered the art of bass," said Carsten Olesen, President of Consumer Audio at HARMAN. "Finding the balance between powerful bass and high-quality sound is a difficult art, but with the introduction of exclusive technologies such as Bass Boost and AI Sound Boost, the JBL Boombox 4 nails it. It's everything fans love about JBL."

Key features

- Unbeatable JBL Original Pro Sound
- Up to 34 hours of battery life
- Bass Boost – Two Settings for Perfect Bass • Auracast™ technology
- AI Sound Boost – Powerful sound without distortion
- Nearly 50% more battery life than the JBL Boombox 3
- New sound design: Third passive radiator added and two new mid-range drivers replace the subwoofer • USB-C lossless audio for wired digital listening
- Weight 5.9 kg, 12% lighter than the JBL Boombox 3
- IP68 – waterproof and dustproof

The new TUNER 3 is here:

The music and radio you love now in one speaker!

Discover the JBL Tuner 3 with crystal-clear JBL Pro Sound that elevates every listening experience, whether it's music, podcasts, news, or sports. The most powerful driver delivers loud sound and thumping bass, taking your FM + DAB radio experience to another level. With up to 15 hours of battery life—12 hours of continuous listening and 3 more with Playtime Boost—you don't have to worry about charging.

The Tuner 3 is IP68 waterproof and dustproof, ready to follow you from poolside parties to beach picnics. Share the sound with friends via Auracast™: stereo pair two Tuner 3s or connect multiple compatible speakers to fill the space with your favorite station. Through the JBL Portable App, you can upgrade, support, and fully customize the sound to always match your mood. And to take it with you everywhere, Tuner 3 features a sturdy loop for easy portability wherever you go.

Key features
