MoGo 4

Press Release
10th September

XGIMI introduces the new MoGo 4!

Spartilia LTD., the official distributor of XGIMI in Cyprus, presents the innovative brand of smart projectors, which promises to transform the home entertainment and outdoor portable cinema experience with the launch of the new MoGo 4 portable projector. Designed to offer cutting-edge technology and bold, modern design, it redefines the world of portable entertainment.

iF DESIGN Award

The XGIMI MoGo 4 projector is an innovative portable smart projector designed to meet the diverse needs of modern lifestyles.

Its compact size and built-in battery offer portability in a variety of situations, from movie nights at home to outdoor adventures and social gatherings. The innovative magnetic lens kit transforms spaces with soft lighting, creating a cozy atmosphere. The translucent design of the base, combined with the latest XGIMI technology and Harman/Kardon sound, offers a rich experience, setting new standards in its category.

All-in-One Atmosphere

The MoGo 4 is a portable 0.23-inch DLP smart projector with an LED light engine. With 1080p resolution, it has a compact design, about the size of a large thermos. XGIMI claims 450 ISO lumens, making this projector ideal for nighttime use or in completely dark rooms. Set the perfect mood with different Magnetic Optical Filters and Ambient Lighting Mode. Use it as a premium speaker or let the lights move to the beat for a dynamic, immersive atmosphere.

Harman/Kardon sound

Listen to your music at high volume with dual 6W Harman Kardon speakers with powerful bass and Dolby Audio support. With multiple audio modes, such as movies, music, games, and sports, the options are endless. Ambient Speaker mode turns the projector into a Bluetooth speaker with atmospheric lighting when it's turned off. Fill your party with powerful, clear sound and combine Ambient Lighting mode to create a new mood in any environment.

Unlimited fun and entertainment

The built-in battery lasts up to 2.5 hours when playing videos in ECO mode and 6 hours for music. Using the PowerBase Stand doubles this number. Now with the option of using a power bank, you can enjoy more entertainment time, wherever you are.

Availability and prices.

The MoGo 4 will be available for purchase at €639.00 at WaveMotion Gallery and other authorized retail channels. The projector will also be available as a bundle with the exclusive PowerBase Stand at an attractive price of €719.00. All accessories will also be available for purchase separately.
