

Every Dream in a Dreame

Spartilia S.A. announces the start of its collaboration with Dreame, the leading international brand with more than 10 years of experience in developing smart, high-quality electrical appliances that combine innovation, technology, and design.

With 4 main product lines, robot vacuums, stick vacuums, wet & dry vacuums, and high-speed personal care products. Each product has been carefully designed to redefine convenience in Smart Living innovation and improve our daily lives. With its "Smart Home, Smart Living" philosophy, Dreame promises to bring a new level of technological harmony to Cypriot households — exclusively through Spartilia S.A.

Robot Vacumms

Robot vacuums, Dreame's No. 1 category, offer maximum autonomy. With powerful suction for flawless cleaning, smart navigation and obstacle recognition using technologies such as LiDAR, automatic recognition of different surfaces during cleaning, full control from the app, and innovative automatic maintenance technology, they will truly change your cleaning experience.

Wet & Dry Vacumms

A vacuum cleaner model for cleaning both solid and liquid stains, which requires enhanced suction power and a suitable moisture/water system. With TangleCut™ technology to prevent hair tangles, separation of solid and liquid waste, and an automatic washing and drying system for accessories after use, your hands are truly free! Equipped with the rest of Dreame's innovative technologies, they are the ultimate 2-in-1 tool for your space.

Stick Vacumms

Dreame Stick vacuums combine lightweight design and specialized technologies that make them highly efficient for everyday cleaning. Specialized motors and battery life of up to 90 consecutive minutes, lighting and dust detection, microparticle filtration, and customized suction technology for cleaning according to your preferences. Choose your ideal vacuum cleaner from over 5 models.

Personal Care

The product range is not limited to home cleaning appliances. Dreame has expanded its range to include personal care products that combine modern technology, ergonomic design, and high performance. From smart, multi-accessory hair dryers that are ideal for travel and easy to use, to multi-functional hair stylers. All products emphasize heat protection for hair, with negative ion technology to prevent frizz and promote smoothness.

About Spartilia

Spartilia Ltd. is a Cyprus-based distribution company offering high-quality consumer electronics, IT accessories, and technology products to specialized retail chains and merchants. Today, Spartilia exclusively develops the Cypriot market for major audio brands such as JBL, harman/kardon, Q Acoustics, Rekkord, and lifestyle technology brands such as Native Union, LIVALL, Rapoo, Duux, and Dreame.

About Dreame

Dreame is a Chinese technology company founded in 2015 that develops and manufactures smart home appliances, with a focus on robotic and cordless vacuum cleaners. It is part of the Xiaomi ecosystem, which allows it to leverage modern technologies and an extensive international distribution network. It stands out for its combination of innovation, high performance, and affordable prices, offering products that incorporate powerful motors, advanced laser navigation systems (LiDAR), and smart cleaning and mapping algorithms.
